Pre-travel Goals

- Participate in the delivery of health care in a resource poor area.
- Challenge myself in the application of the training I have already received
- Take away experiences that will help me to be more mindful in my current approach to healthcare delivery.
- Incorporate global health in my future career
- Have fun!

The Trip

Reflections

- 593 patients seen during my time at the Clinic!
- Intersection of urgent care and chronic care
- Psychology of cure, cultural expectation of getting procedure or medication
- Limitations of diagnostic evaluation and treatment regimen in resource poor area
- **Incredible once in a lifetime experience!**
- Don't forget! Mebendazole, + Vitamin A q4-6 months!
