The Lake Clinic Cambodia, A MedPeds Experience...

Jeremy Jennings DO, MBA, MPH; Jennifer Watts MD, MPH

Pre-travel Goals

- Participate in the delivery of health care in a resource poor area.
- Challenge myself in the application of the training I have already received.
- Take away experiences that will help me to be more mindful in my current approach to healthcare delivery.
- Incorporate global health in my future career.
- Have fun!

The Trip

Reflections

- 593 patients seen during my time at the Clinic!
- Intersection of urgent care and chronic care.
- Psychology of cure, cultural expectation of getting procedure or medication.
- Limitations of diagnostic evaluation and treatment regimen in resource poor area.
- Incredible once in a lifetime experience!
- Don’t forget! Mebendazole, + Vitamin A q4-6 months!

Children’s Mercy Kansas City, Kansas City, Mo.

Images of various patients and medical scenarios from the clinic.

AOM, malnutrition, perforated ear drum, plagiocephaly, corneal abruption, iris synechia, seroma, nasal tear, choreiform disorder, insulin, cockroach in ear, hemoptysis, neuropathy, goiter, palpitations, msk pain, headaches.
