Why TLC?

- Rural medicine in third world setting
- Medical care for adults and children

Limitations

- Higher acuity referrals had only one way to get care – transport 4 hours back to the city with us in our little boat

Ailments

- Congenital disorders
- GERD
- Infectious diseases
- Malnutrition

Congenital Hemangioma

Limited resources for children
- Home-made spacers
- No liquid meds or rectal meds

Moving Forward

- My goal is to continue international medicine work and aim for in-hospital work next time
- I am grateful for Children’s Mercy’s sponsorship to my first international medicine experience. This is only the beginning of many more experiences such as this
